### DETAILED ACTION

The amendment and remarks filed 06/14/04 have been acknowledged and entered.

1. The drawings were received on 06/14/04 . These drawings are approved.
2. Claims 1-17 are pending.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, and 7, "with cleaning process including: a solution ----; ultrasonic agitation; and an exposure time greater than about 6 minutes" is confusing and indefinite, because the process steps have not been recited. It is suggested that "cleaning process comprising: contacting the photomask with a solution comprising ammonium hydroxide, -----; agitating

the solution by using ultrasonic; and exposing the photomask to the solution -----".

In claim 3, line 2, "an about" is indefinite and confusing term.

5. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim s 1,6, and 7 recites the broad

recitation greater than, and the claim also recites about which is the narrower statement of the range/limitation.

6. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim s 3,10 recites the broad recitation less than, and the claim also recites about which is the narrower statement of the range/limitation.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kern or Hanson et al.

This rejection stated in paper No. 030104 is maintained.

9. Claims 14-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kern or Hanson et al in combination with Lee et al. (6,139,993).

Kern or Hanson et al. as discussed supra in paper No. 030104 do not teach the photomask as claimed in claims 14-17.

Lee et al. disclose a method of repairing a defect in a photomask. The reference discloses the photomasks as claimed. See the abstract, col. 2, lines 39-65.

It would have been obvious for one skilled in the art to use the method taught by Kern or Hanson et al. to clean the photomasks of Lee et al. to obtain the claimed process. This is because Hanson et al. disclose that using the cleaning solution as can clean substrates such as wafers, flat panels, and photomasks claimed. See col. 1, lines 47-54. Kern also discloses that postcleaning after photoresist stripping is necessary for every mask level throughout the production process. See page 1887. first paragraph, after the abstract.

### ***Response to Arguments***

10. Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final

action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
